

FLOWING EXPERTISE

 **CALEFFI**
Hydronic Solutions

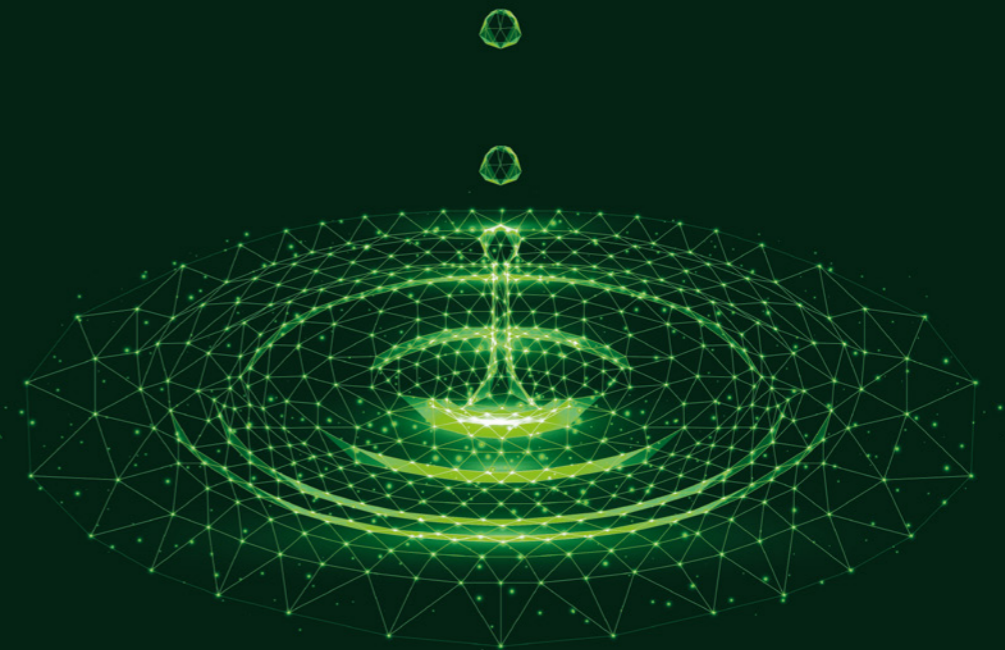

FLOWING EXPERTISE

1 9 6 1 / 2 0 2 1

We have been redesigning comfort with our HVAC and plumbing solutions for over 60 years. Each of us is a drop in a sea of constantly evolving expertise. We work and learn together to deliver the best possible results.

Some people go with the flow. We are the flow.

**WE KEEP
PUSHING
THE
BOUNDARIES**

The flow of expertise,
technology, experience and innovations
that we have acquired over the years
through the support of our customers and suppliers
makes it possible.

A flow that breaks the mould,
allowing us to constantly set the benchmark.

Attention to detail and aesthetics, dedication to work,
a focus on human and business relations, corporate transparency,
territoriality as a value.

Our uniqueness.

SUSTAINABILITY

Our focus on preserving **environmental, social and economic well-being** to be passed on to future generations through unique products and processes.

TECHNOLOGY

Our ability to do research, invest in processes and develop **unique state-of-the-art solutions** in a world of ever-evolving expertise.

MADE IN CALEFFI

A uniqueness that is the sum of many details, which is what we are known for worldwide. A true **“Made in Italy”** spirit that pervades everything we do.

FUTURE

Innovation aimed at creating **new and unique forms of comfort** for spaces, which motivates us to continue to grow and improve.

FLOW OF LIFE

A unique way of flowing. A **continuous change**, a high degree of reliability in our work, and the ongoing pursuit of total quality, which is the result of small daily actions.

60 YEARS OF CALEFFI AND BEYOND

We are an established multinational company with a long tradition of manufacturing in Italy and locations all over the world. We continue to invest in the future.

Our founder, Francesco Caleffi, has passed his work ethic on to us, as well as his commitment and desire to keep growing. These are the values that also his son Marco, who now heads the Group, has always passed on to us.

MADE IN CALEFFI OUR EXCELLENCE

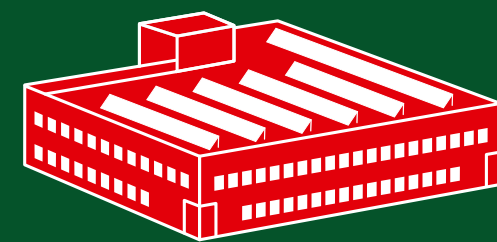

We have been honing our skills since 1961. We continuously strive to increase our expertise, design and create new products, invest in improving our processes, always aiming for the perfect flow.

For us, technology applied to mechanical engineering is more than a craft. It is our history. It is our art.

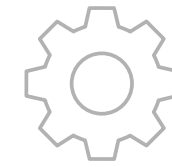

CUBOROSSO: DESIGN AND PROTOTYPING

At our R&D centre, we design products and services in synergy with the market, seeking the perfect balance between performance and benefits

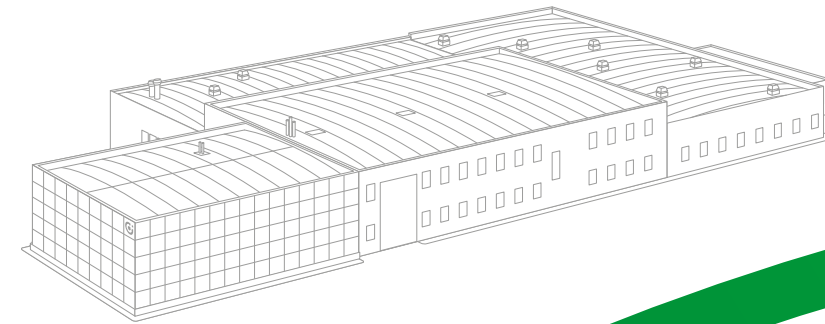

CUBOROSSO
FONTANETO D'AGOGNA

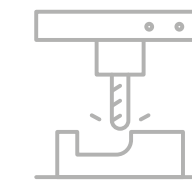

ENGINEERING

Thanks to rapid prototyping and in-house manufacturing, we are able to produce moulds and equipment tailored to our needs

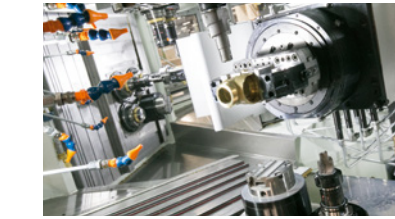

CALEFFI 2
FONTANETO D'AGOGNA

MECHANICAL PROCESSING TRANSFER AND MULTI-SPINDLE

27 transfer machines (7 Industry 4.0)
4 machining centres (1 Industry 4.0)
58 single and multi-spindle lathes (9 Industry 4.0)

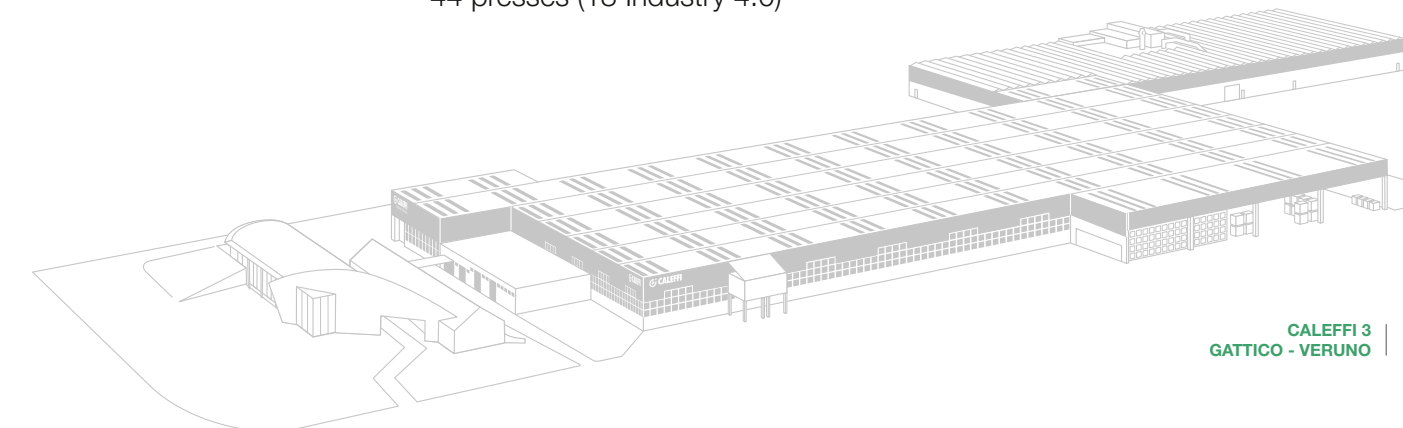

CERTIFIED RAW MATERIALS

We handle traditional and innovative materials in-house, including brass and low lead alloys, dezincification resistant alloys, steel and technopolymers

PLASTICS MOULDING

44 presses (13 Industry 4.0)

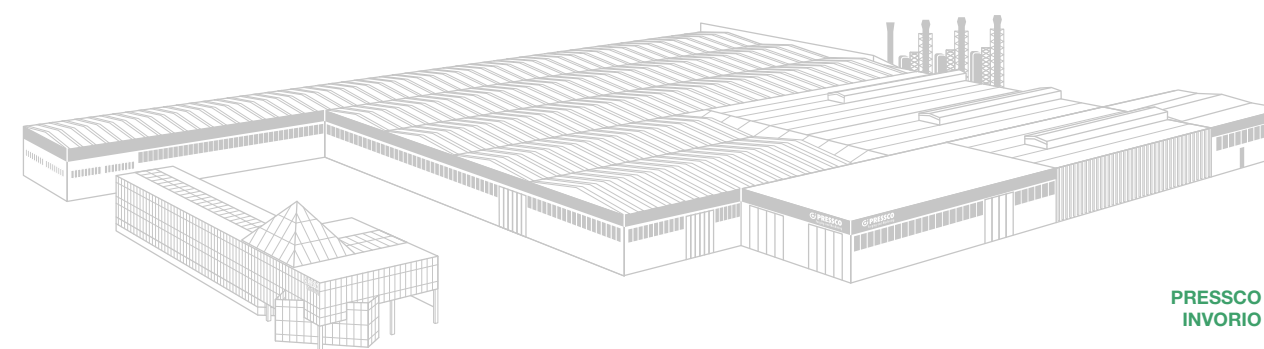

CALEFFI 3
GATTICO - VERUNO

HOT FORGING

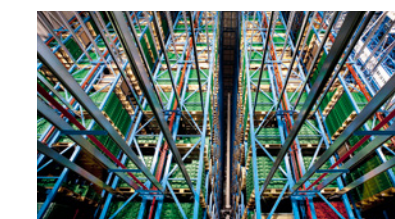

12,5 mln kg/year hot forged brass parts
1,5 mln kg/year hot forged low lead brass parts
22 presses (3 Industry 4.0)
7 automatic cutting robots
4 manual cutting areas

PRESSCO
INVORIO

ASSEMBLY

64 automatic resources (9 Industry 4.0)
59 manual assembly islands (4 Industry 4.0)

LOGISTICS

We ensure greater capacity, timeliness and accuracy in order processing at international level

Total volume 85,000 m³
Up to 51,000 boxes - Up to 14,000 pallets

MADE IN CALEFFI OUR ART

From concept to detail, our products are the result of creativity and design, manual skills, technological innovation and digital precision.

An example of Italian quality, which we are known for worldwide, the "Made in Italy" mark that we have made our own, an art we have been mastering for over 60 years.

QUALITY CONTROL

Compliance with the main ISO standards, in particular **UNI EN ISO 9001:2015**

100%
MADE IN ITALY

WE BUILD THE FUTURE DAY BY DAY

We envision it
and take on the challenge to make it happen.
For us, the future is about continuous innovation,
designing products
that have a positive impact on society
and the environment.

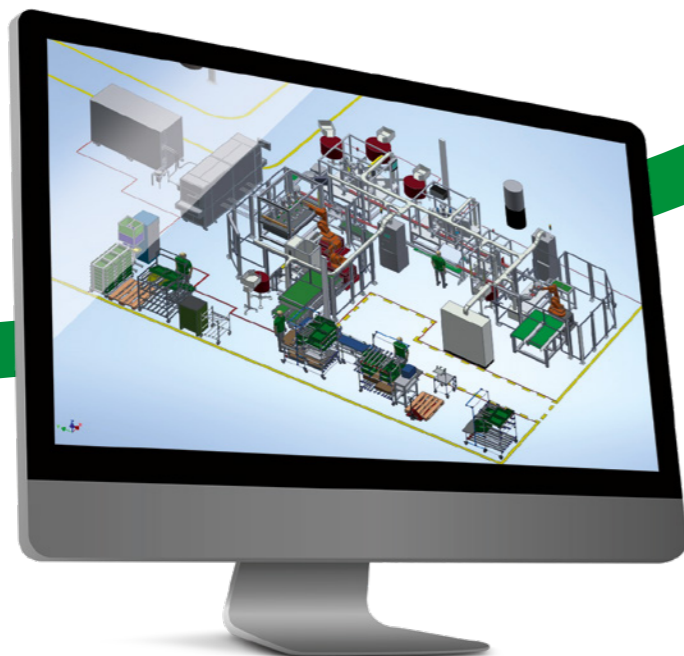

OUR TECHNOLOGY HAS A HUMAN FACE

WE ARE A SMART FACTORY

Our information technology connects not only our machines but also Caleffi's various souls.

An ongoing dialogue that allows us to analyse data, trends and perspectives, ensuring quality and performance.

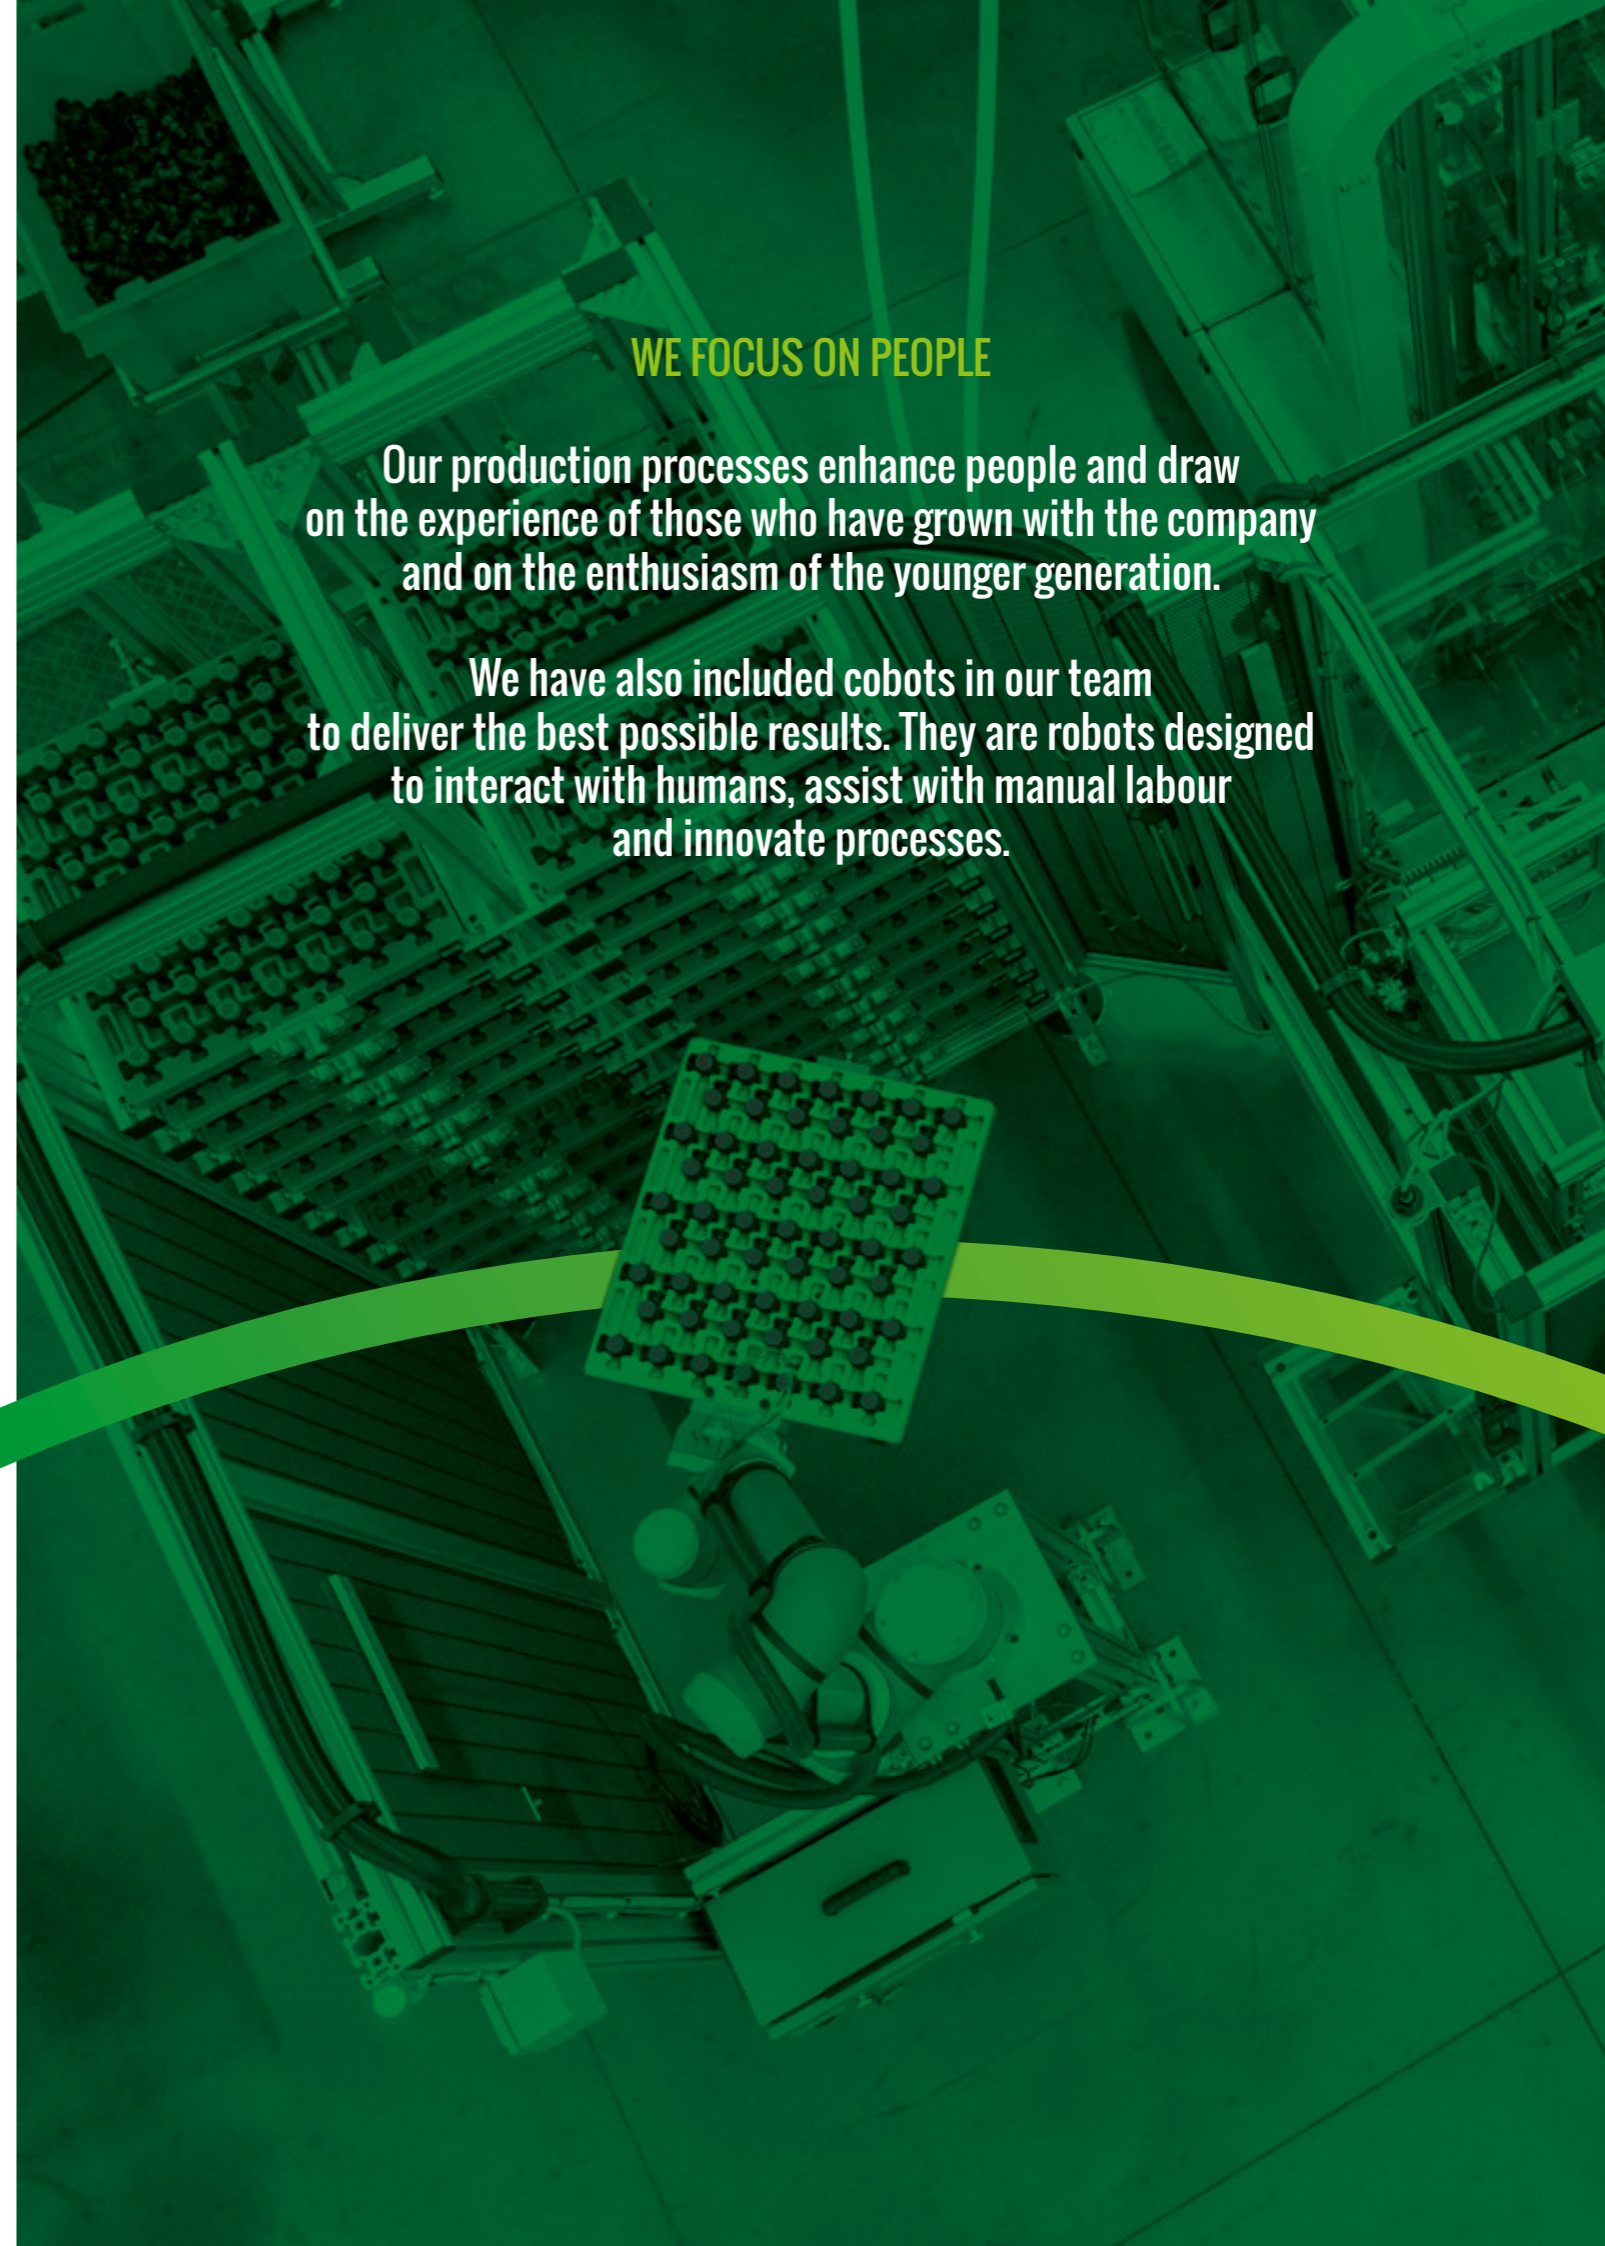

Thanks to the digital twin, we are able to simulate processes, predict results, save time and reduce costs, anticipating and eliminating possible errors.

WE FOCUS ON PEOPLE

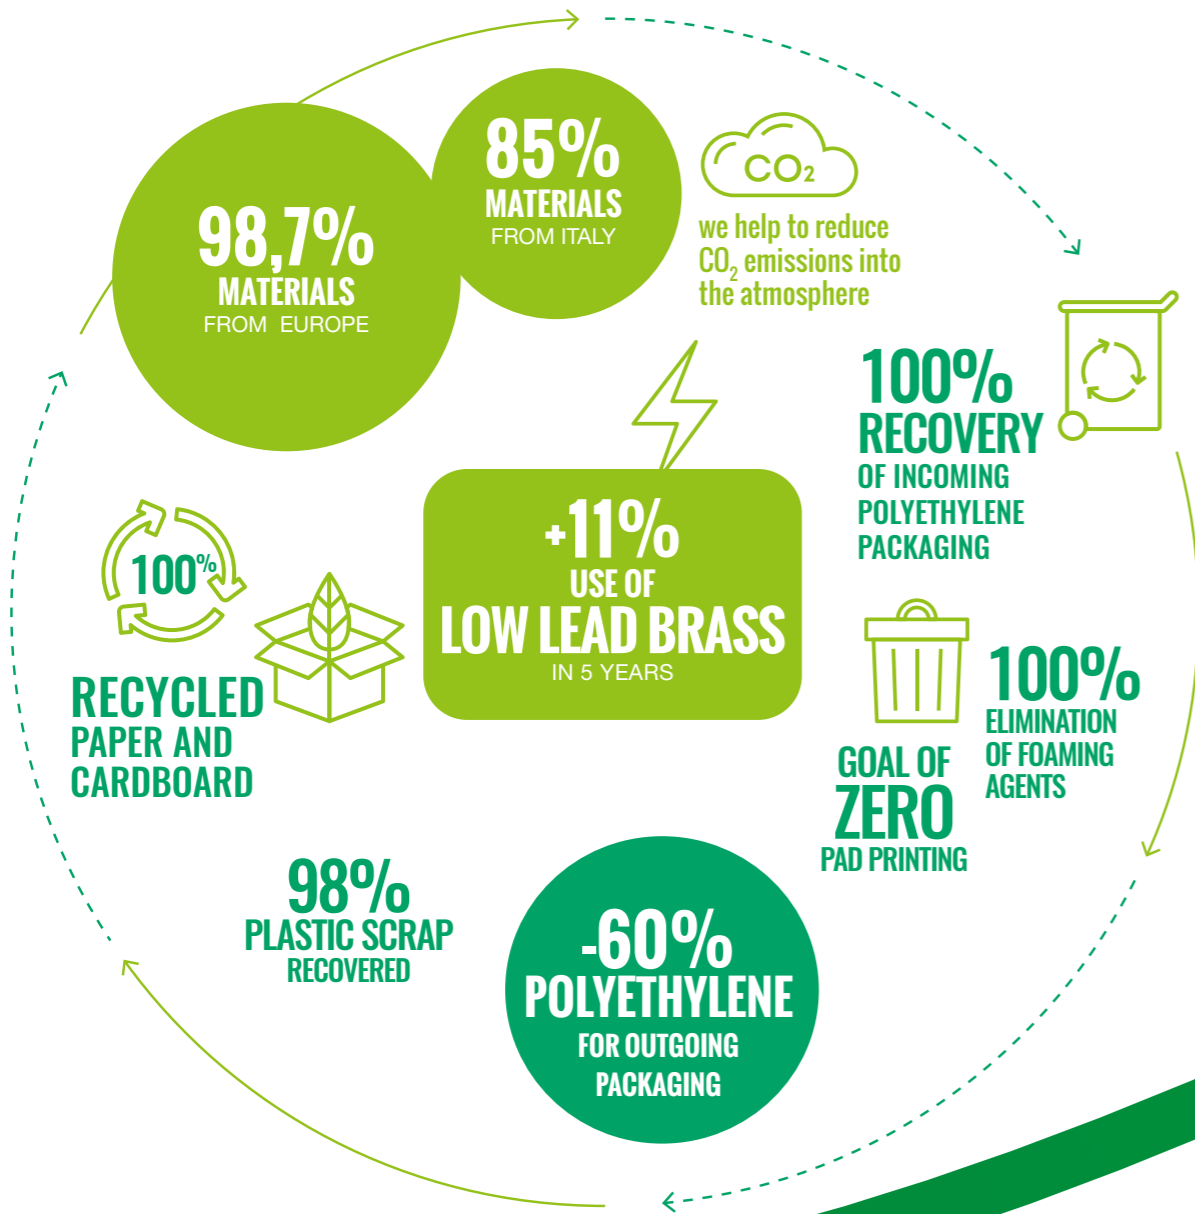

Our production processes enhance people and draw on the experience of those who have grown with the company and on the enthusiasm of the younger generation.

We have also included cobots in our team to deliver the best possible results. They are robots designed to interact with humans, assist with manual labour and innovate processes.

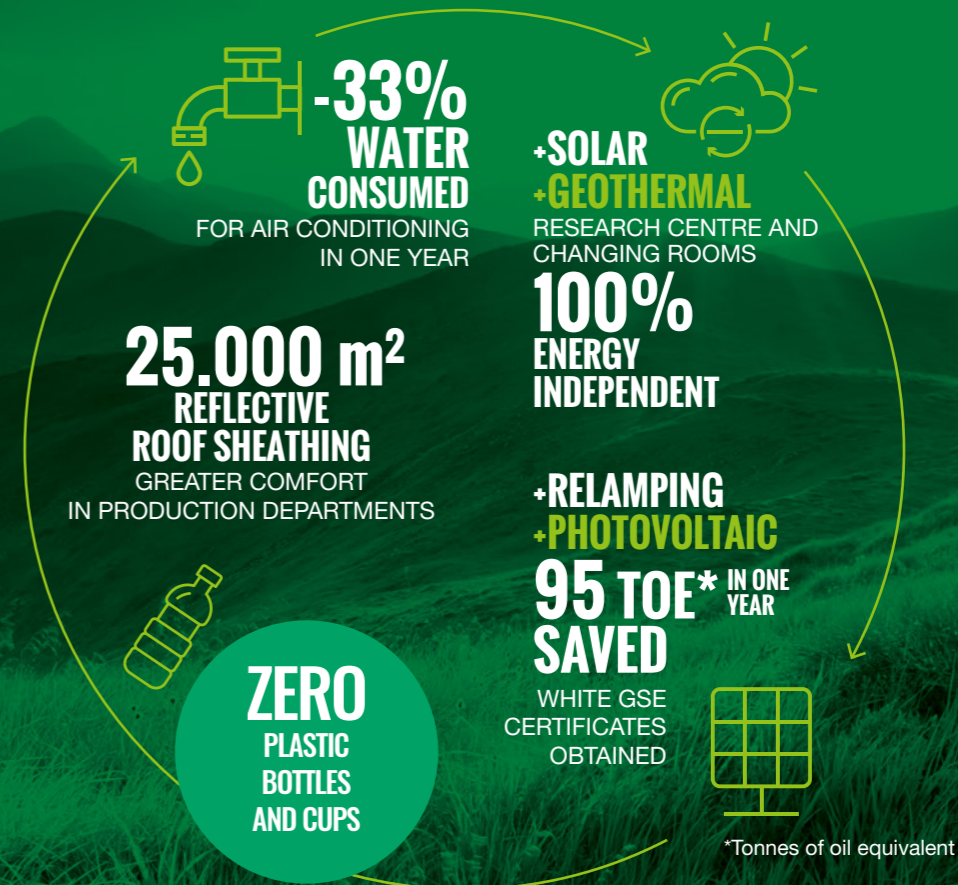

OUR SUSTAINABLE IMPACT

For us, sustainability is a strategic choice and a daily commitment.
A flow that feeds the planet and makes it a better place.

CALEFFI GREEN PROJECT

It was launched in Italy with the aim of raising awareness of the role that each of us plays in sustainable development, and how we can contribute every day through tangible actions.

The FSC logo identifies products certified for the FSC standards which ensure that the entire supply chain derives from environmentally friendly, socially useful and economically sustainable forest management.

Caleffi has chosen to print it on certified paper FSC®.
