**Coffee with Caleffi™ Webinar Series:
Between the Lines - DHW Return Design**

MILWAUKEE – Wednesday, Feb. 7, 2024: Domestic hot water (DHW) sizing and design is critical to optimize energy efficiency, reduce water waste, and improve safety. Host **Christoph Lohr, P.E.** returns to the webinar series to detail the engineering methods that can help designers right-size their hot water return (HWR) system at the next *Coffee with Caleffi* webinar on **Thursday, Feb. 22** at 12:00 p.m. CST.

Lohr is IAPMO's Vice President of Technical Services and Research. He has over a decade of experience in designing plumbing systems and has a reputation as a results-oriented expert, particularly in the realm of balancing waterborne pathogen prevention and water sustainability. Lohr is a distinguished graduate from the Virginia Military Institute, with a Bachelor of Science in Mechanical Engineering.

A Certificate of Attendance is emailed to attendees following the event for continuing education audits. The monthly educational webinars are free and are intended for engineers, contractors, designers and wholesalers.

Visit our website at www.caleffi.us for schedule details and [registration](#) requirements.

CALEFFI – Creating innovative, superior performance hydronic and plumbing products that help customers live comfortably and economically, while softening their impact on the environment.
