### ***Coffee with Caleffi™ :*** **Applying Air-to-Water Heat Pumps in Hydronic Systems**

MILWAUKEE, WISC. – Wednesday, Oct. 2, 2019 Hydronic heating and cooling distribution systems can be supplied from a variety of heat pumps. They are an ideal match for modern hydronic distribution systems. One specific type is called an air-to-water heat pump. A favorite to the series, **John Siegenthaler, P.E.** will present information on how these heat pumps are installed and how they perform in such applications at the next *Coffee with Caleffi™* webinar on **Thursday, Oct. 24 at 12 noon CDT.**

A seasoned industry leader and passionate teacher, Siegenthaler shares his over 35 years' experience in the understanding and proper application of water-based engineering principles with our audience. He is the principal of *Appropriate Designs* and a regular contributor to industry publications.

The one-hour educational webinars are free and are intended for contractors, designers and wholesalers. A *Certificate of Attendance* is emailed to attendees following the event for continuing education audits. Please visit our website at [www.caleffi.us](http://www.caleffi.us) for schedule details and registration.

**CALEFFI** – *Creating innovative, superior performance products that help customers live comfortably and economically, while softening their impact on the environment.*
