Caleffi Introduces the 30th Edition of *idronics*[™]: Hydronics for Low-Energy & Net-Zero Buildings

MILWAUKEE – Friday, Jan. 21, 2022: Caleffi North America, Inc., a leader in state-of-the-art engineered solutions for hydronic and plumbing systems and committed to providing *Excellence in Education*, is proud to introduce the 30th edition of *idronics*[™]: Hydronics for Low-Energy & Net-Zero Buildings. This newest edition describes concepts and technical details in crafting hydronic systems for these modern buildings. It stresses simplicity, repeatability and resilient approaches that deliver comfort without the complexity and cost.

Caleffi also provides an interactive experience for the journal, optimizing access for mobile, tablets and desktop devices. The content is fully searchable and is complimented with video and resource links. The interactive edition can be found at idronics.caleffi.com.

A formal *Coffee with Caleffi*[™] webinar discussion will be presented on Thursday, Feb. 17 from 12:00 – 1:30 p.m. CST where our audience is invited to join John Siegenthaler, P.E. as he explains these hydronic systems of the future. Registration details are available on our website.

Not familiar with *idronics*? The complimentary journal is provided semi-annually and is intended for industry professionals to aid them in system design, component application and selection. Subscribers to the journal will receive a hard copy of the new edition in February.

For further information, please visit www.caleffi.us or contact us at (414) 238-2360.

CALEFFI – *Creating innovative, superior performance hydronic and plumbing products that help customers live comfortably and economically, while softening their impact on the environment.*
