Coffee with Caleffi™ : **Correcting Common Mistakes in Hydronic Systems**

MILWAUKEE, WISC. – Tuesday, March 26, 2019 Years' of experience installing and maintaining hydronic systems lends itself well to compiling lists: 1) what to do 2) what not do to and 3) how to fix what shouldn't have been done. New to the webinar series, **Eric Aune** will share his industry know-how discussing **Correcting Common Mistakes in Hydronic Systems** at the next *Coffee with Caleffi™* webinar on **Thursday, April 18 at 12 noon CDT.**

Aune, owner of [Aune Plumbing and Heating](#) (Zimmerman, Minn.) and operating partner of the popular [Mechanical Hub](#) website is driven to learn and motivated to teach. He's an industry megaphone, sharing his expertise on digital platforms and encouraging the next-gens. Aune specializes in radiant heating, high efficiency hydronic systems and - in his own words - is a "tool nut".

The one-hour educational webinars are free and are intended for contractors, designers and wholesalers. A *Certificate of Attendance* is emailed to attendees following the event for continuing education audits. Please visit our website at www.caleffi.us for schedule details and registration.

CALEFFI – *Creating innovative, superior performance products that help customers live comfortably and economically, while softening their impact on the environment.*
