### Coffee with Caleffi™ Webinar Series: Troubleshooting Hydronic Systems, Part 2

**MILWAUKEE – Tuesday, March 7, 2023:** There is an ongoing need for technicians who can diagnose and correct issues with all types of HVAC systems. Continuing from *Troubleshooting Hydronic Systems, Part 1* where host **John Siegenthaler, P.E.** built a framework for system troubleshooting, this webinar will cover identifying common system problems and applying corrective actions. Siegenthaler finishes this two-part discussion at the next *Coffee with Caleffi™* on **Thursday, March 23 from 12 noon – 1:00 p.m. CDT.**

You'll learn:

- How to apply the systematic approach to troubleshooting from Part 1
- Common compromised performance symptoms and causes
- Design modifications to prevent issues
- Corrective actions in existing systems

**Siegenthaler** is a seasoned industry leader and passionate teacher, eager to share his over 40 years' experience in the understanding and proper application of water-based engineering principles with our audience. He is the principal of Appropriate Designs and a regular contributor to industry publications.

Part 1 of this webinar series can be conveniently accessed on [YouTube](#). For further resources, the 32<sup>nd</sup> edition of *idronics™*: **Troubleshooting Hydronic Systems**, is available at [idronics.caleffi.com](http://idronics.caleffi.com).

The monthly educational webinars are free and are intended for engineers, contractors, designers and wholesalers. Visit our website at [www.caleffi.us](http://www.caleffi.us) for schedule details and registration. A *Certificate of Attendance* is emailed to attendees following the event for continuing education audits.

**CALEFFI** – *Creating innovative, superior performance hydronic and plumbing products that help customers live comfortably and economically, while softening their impact on the environment.*
