Coffee with Caleffi™ Webinar Series: Expanding Your Knowledge of Expansion Tanks

MILWAUKEE – Monday, Aug. 1, 2022: Expansion tanks are a vital safety component in plumbing and hydronic systems. In the next edition of Coffee with Caleffi™, legend **Bob "Hot Rod" Rohr** joins **Cody Mack** to expand your knowledge of these versatile tanks. They will discuss function, sizing and how to avoid common failures. Attendees will also learn about proper placement, multiple-tank applications, vessel linings and other best practices. This edition of Coffee with Caleffi will be on Thursday, Aug. 18 from 12 noon – 1:00 p.m. CDT.

Rohr is a 2020-2022 Carlson-Holohan Industry Award of Excellence honoree, he travels from sea to shining sea for Caleffi North America, sharing his 40+ years' of experience as a plumbing, radiant heat and renewable energy contractor. He is a regular contributor to industry magazines where Hot Rod brings his rubber-to-the-road experiences to life.

Mack has nearly 20 years' experience as installation contractor, service technician, application engineer, training manager and now product manager for Caleffi. Our audience will appreciate his thoughtful yet humorous content delivery combined with his practical, common sense product approach.

The monthly educational webinars are free and are intended for engineers, contractors, designers and wholesalers. A Certificate of Attendance is emailed to attendees following the event for continuing education audits.

Please visit our website at www.caleffi.us for schedule details and registration.
