### **Caleffi Introduces the 29<sup>th</sup> Edition of *idronics*<sup>™</sup>: Heat Exchangers in Hydronic and Plumbing Systems**

**MILWAUKEE – Monday, Aug. 30, 2021:** Caleffi North America, Inc., a leader in state-of-the-art engineered solutions for hydronic and plumbing systems and committed to providing *Excellence in Education*, is proud to introduce the 29<sup>th</sup> edition of *idronics*<sup>™</sup>: Heat Exchangers in Hydronic and Plumbing Systems. This newest edition explores how heat exchangers are used and applied in heating, cooling and plumbing applications. Different categories of heat exchangers are described, as are common methods of assessing their performance. Installation details are provided that ensure lasting peak performance.

Caleffi also provides an interactive experience for the journal at [idronics.caleffi.com](http://idronics.caleffi.com). The image-rich software optimizes access for mobile and desktop devices while providing intuitive access to formulas, schematics, graphs and technical information for on-the-go professionals. The content is fully searchable and is complemented with video and resource links.

*idronics* is a complimentary educational journal series for hydronic, plumbing and renewable energy professionals to aid them in system design, component application and selection. Subscribers to the journal will receive a hard copy of the new edition.

For further information, please visit [www.caleffi.us](http://www.caleffi.us) or contact us at (414) 238-2360.

**CALEFFI** – *Creating innovative, superior performance hydronic and plumbing products that help customers live comfortably and economically, while softening their impact on the environment.*
